Objective

I am an ambitious and detail-oriented software engineer with hands-on experience in Java, Python. Eager to join a company where I can drive innovation and deliver high-quality software solutions. Passionate about continuous learning and contributing to a collaborative team environment to tackle complex technical challenges and achieve organizational goals.

Skills

Core Concept: Data Structure and Algorithm
Programming Languages: Python, C/C++, Java
Web Technologies: HTML, CSS, JavaScript, ReactJS, Bootstrap, Tailwind CSS, REST API Development
Databases: MySQL, DBMS, SQL
Tools and Technologies: Postman, Linux, Git
Networking: Cisco Technologies, OSI Model, TCP/IP, Ethernet

Experience

Software Development Engineer in Test   *jan 2024 – Present*
CISCO

- Actively involved in testing and validating Cisco's ACI (Application Centric Infrastructure) solutions.
- Responsible for automating and executing test cases to ensure the robustness and reliability of ACI features, including APIC .
- Contribute to the continuous improvement of testing frameworks, resulting in enhanced testing efficiency and product quality
- Collaborate closely with cross-functional teams to identify and resolve issues, ensuring seamless management of multiple data center sites across different geographical locations.
- Troubleshooting and resolving network integration issues in Cisco's ACI solutions.
- Automating testing processes to enhance integration efficiency and reduce downtime.

Education

B.Tech in Computer Science Engineering   *Aug 2019 - June 23*
Bengal College Of Engineering And Technology

- CGPA: 8.97/10

Projects

Rent House ↗   *HTML,TailwindCSS,ReactJS*

- A responsive website that keeps records of all available nearby flats at affordable prices.
- Having features such as filtering(price, location, room numbers, etc) according to your preference
- Here people can check the availability, price, and owner's details of flats

E-Commerce ↗   *HTML, CSS, ReactJS*

- Developed a web-based E-commerce website using HTML, CSS, REACT
- A responsive website with smooth UI and attractive Design
- Having several key features, including Login, filters, add to cart option and a checkout page.

Achievements

- Got Silver Batch in NPTEL course "The Joy of Computing using Python"
- Become 3 star coder on CODECHEF

Certifications

- Cisco Certified Network Associate 200-301 (CCNA) ↗
- Introduction to Packet Tracer ↗
- AWS Academy Cloud Foundations ↗
- Python Training Certification Course
